- **Krushna & Hardh** both struggled in **MV (12)**; Hardh also had a very low **DM (5)**.
- **Nikhil (36.7%)** needs the most help — low in DM (7) and FLGP (8).

6. Quick Takeaways

- **DM (14.4) and MV (15.9) were the hardest papers** for the whole class — low marks there are partly the paper, not the student.
- **MS and FLGP were the most scoring** (class avg ~21) — easy marks to grab.
- **You:** an outstanding all-round result — class rank 1 with no weak subject. Keep the same preparation.
- **For the group:** extra practice in DM and MV (the tough application papers) would help everyone the most.

All numbers are taken directly from the six official mid-sem result sheets. Marks are out of 30; overall % is the average across the subjects each student appeared for.
